2. Pictures of the elusive Warping Wheel, caught on (digital) film:

Those of you who thought the day would never come can see these rare creatures in the works; while

we are still WAAAY behind schedule, we aren't giving up and neither should you. We hope to have at least those ordered at Convergence 2000 shipped before the end of the year and the rest in early 2001. As you can see from the pictures, our great new CNC machine is starting to make up time.

3. GREAT REFURBISHED AVL LOOMS ARE NOW AVAILABLE: Link to our web site <http://www.AVLUSA.COM/UsedLooms.html> to check out the latest and greatest in completely refurbished AVL Looms; what we call A.I.R. looms (AVL Inspected and Reconditioned) will become an instant heirloom. Please remember, we completely re-work EVERY part on a Used loom and then place a one year warranty on the whole loom. All that and the prices are great, too.
